How will I receive my results?

Thank you for attending the Radiology Department.

Your examination was requested by one of the hospital doctors / health care professionals / GPs and your results will be back with your referring clinician as indicated by the results slip which you will receive following your radiology examination. If you have not received a results slip and are unaware of where to obtain your results please contact the department on 0121 424 3279.

I hope the care you received with us in the Radiology Department was of a high quality, if however you have any comments about your experience, please contact the department on 0121 424 3279 or complete our online form via our website as we appreciate all forms of feedback from our patients to continue to improve the service we provide.
